Dear Mr. DirectorName

I am writing in response to the recent vacancy that was advertised on the JobTeaser website. I wish to apply for the post of NameOfPost with the intention to get a permanent position within your company.

I am in my 2nd year at INP-ENSEEIH in Toulouse, studying Computing Networks and more specifically Software Systems. My studies and my experiences have given me the opportunity to construct a solid scientific and computing background so that I can work in a profession in which I feel useful. Indeed, for me, the priority today is to ensure that our generation will leave to future generations a better world. It is for this reason that your vacancy corresponds perfectly to my desires. Furthermore, I was particularly captivated by the mentality of your company and the values that you promote like gender equality and diversity in harmony with those of the 21 st century.

My years of study at ENSEEIH have permitted me to identify my personal strengths such as undertaking, serious and sociable. Although, as a Reunionese, I grew up in an environment where all cultures and religions were mixed and I think it was a great chance for me. So, I believe that I have the necessary open-mindedness to work in cooperation with foreign engineers towards a common goal, make the world a better place with our ideas and teamwork.

I will contact you in the next two weeks to see if you require any additional information regarding my qualification.

Yours Faithfully,

Cyril Figuin
